

# CONSTRUCTION SITE SAFETY

## RESPONSIBILITY TOWARDS THE COMMUNITY

\* All workers are required to comply with these rules during the execution of project works.

### MOVEMENT AND TRAFFIC

*Move only along approved routes*

- Movement is permitted only on designated access roads
- Respect speed limits and terrain conditions
- A signalman is mandatory when reversing
- Movement of machinery outside approved routes is prohibited

### EXCAVATIONS AND TRENCH WORKS

*Secure the trench before entry*

- Trench walls must be stabilized or supported
- Entry into unsecured trenches is prohibited
- Provide safe access and egress (ladders or access points)
- Keep materials and machinery away from trench edges

### ELECTRICAL SAFETY

*Work only with proper authorization and in accordance with procedures*

- Application of Lock-Out / Tag-Out (LOTO) system
- Work to be carried out only by authorized personnel
- Maintain safe distances from electrical installations

### PROTECTION OF LAND AND PROPERTY

*Respect private property*

- Movement and works must be restricted to defined corridors
- Avoid damage to land and crops
- Mandatory site restoration after completion of works

### DUST AND ENVIRONMENTAL IMPACT

*Minimize environmental impact*

- Reduce speed on unpaved roads
- Apply water spraying in dry conditions
- Stop work if dust negatively affects the environment

### PERSONAL PROTECTIVE EQUIPMENT (PPE)

*PPE is mandatory on site*

- safety helmet • high-visibility vest • safety footwear
- gloves • eye protection

## REPORTING IRREGULARITIES

Any hazard, incident, or irregularity must be reported immediately to a supervisor or the responsible person on site, either verbally, by completing a grievance form, or via email at: [prigovori@xegroup.eu](mailto:prigovori@xegroup.eu)

## Electric Power Infrastructure Modernization of Luštica

**Component II:** Luštica Lot 2 – 110 kV Cables  
**Investor:** Montenegrin Electric Transmission System AD (CGES)  
**Contractor:** JV XEnergy d.o.o. Podgorica and Tele-Fonika Kable S.A.
